

## Interior Finish Options

### **FIBREGLASS CLAD ENERGY SAVING WINDOWS - INTERIOR WOOD OPTIONS**

Wood-Ultrex windows feature solid-wood, pine interiors in a bare wood finish that is ready for painting or staining or a factory-applied semi-gloss white paint.

Bare Wood (pine)

Pine (Prefinished)

\* Wood is a product of nature and will vary in color, texture and grain. The wood options shown are to demonstrate the approximate look only.

Get incredible value from our fibreglass clad energy saving windows while still enjoying the same style and quality of traditional wood windows, Please visit Marvin Architectural to see interior color samples.

## Exterior Finish Options

### **FIBREGLASS CLAD ENERGY SAVING WINDOWS - COLOR OPTIONS**

The Ultrex patented finish process is three times thicker than competitive finishes to resist scratching and maaring. It also provides five times the UV resistance to protect against fading, chalking, streaking and cracking.

Stone White

Pebble Grey

Cashmere

Bronze

Evergreen

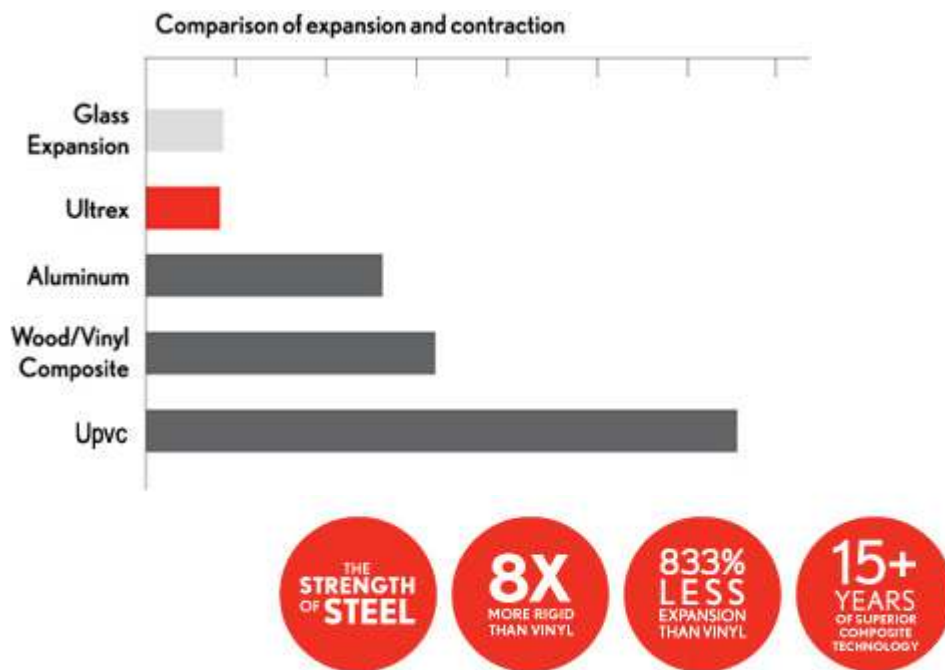

Ebony

## ULTREX FIBERGLASS

Our high-performance, energy saving windows with proprietary Ultrex fiberglass delivers the strength and rigidity that outlasts and outperforms UPVC and aluminium. Plus, our patented finishing process yields a finish that is three times thicker than competitors that looks great for the life of the window.

- ❖ Durable low-maintenance pultruded fiberglass
- ❖ 8x stronger than UPVC
- ❖ 9x less expansion and contraction than UPVC
- ❖ Non-conductive and non-corrosive
- ❖ Patented finishing process resists fading and cracking

## EXTERIOR TRIM

Marvin Exterior Trim Solutions are now offered on all rectangular Wood-Ultrex and All Ultrex products. Which means the same durability, performance and look you get in your Marvin windows and doors can be extended to your trim. Create a new dynamic look knowing your corners and colors will stay true and enhance your project's finished appearance with MARVIN's energy saving windows.
