

GLASS

Marvin doors are offered with double strength LoE2-272® insulated glass with argon as a standard option. A selection of performance related options are available to meet performance and code requirements.

Tempered

Tempered glass offers extra strength and safety in larger products or where code dictates. Available with LoE2-272®, LoE3-366® and LoE-180®.

GRILLES AND GLAZING BARS

Grilles and glazing bars are available in a variety of styles to match the architectural design of your home.

Simulated Glazing Bars

These bars are permanently adhered to both sides of the glass for a more authentic glazing bar appearance both inside and out.

Grilles Between The Glass (GBG)

By inserting the grille between the panes of glass, you get the lite cut appearance you desire with the easy cleaning of a single pane of glass.

Wood Interior Grilles

Enjoy the warmth of real wood with an innovative concealed fastener system that allows for easy removal and cleaning.

GLAZING BAR PATTERNS

Marvin offers six window glazing bar patterns. The Cottage and Equal Lite patterns are available as Simulated Glazing Bars, while Rectangular, Prairie, 2w2h and 2w1h patterns are available in both Simulated Glazing Bars and Grilles Between The Glass GBG. Wood Interior Grilles are available in a Rectangular pattern only.

Rectangular
2w x 5h - 6' 5"
2w x 5h - 6' 8"
2w x 6h - 8' 0"
