

Cherry

A close-up view of a wood plank with a smooth, wavy grain pattern. The color is a warm, medium-brown with subtle variations in tone and a few small, dark spots.

Douglas Fir

A wood plank showing a prominent, wavy grain pattern. The color is a light, warm tan with darker, wavy lines running through it.

Mahogany

A wood plank with a fine, straight grain pattern. The color is a rich, dark brown with a slightly mottled appearance.

*Vertical Grain
Douglas Fir*

A wood plank with a very fine, straight grain pattern. The color is a light, warm tan with a subtle, vertical grain texture.

White Oak

A wood plank with a fine, straight grain pattern. The color is a light, warm tan with a subtle, vertical grain texture.

Pine

A wood plank with a fine, straight grain pattern. The color is a light, warm tan with a subtle, vertical grain texture.

*Western Red Cedar**

A wood plank with a fine, straight grain pattern. The color is a light, warm tan with a subtle, vertical grain texture.

*Black Walnut**

A wood plank with a fine, straight grain pattern. The color is a dark, rich brown with a subtle, vertical grain texture.

*Maple**

A wood plank with a fine, straight grain pattern. The color is a light, warm tan with a subtle, vertical grain texture.

WOOD SPECIES

BEAUTIFUL BY NATURE

Marvin Architectural makes it easy to complement any project or design with an array of high-quality standard wood options, including Pine, Cherry, Douglas Fir, Mahogany, Vertical Grain Douglas Fir and White Oak. And if your project requires the one-of-a-kind look of an unusual wood species, Marvin offers many beautiful and unique options including Maple, Black Walnut and Western Red Cedar.*

All Marvin wood species are specially treated under a highly effective multi-step process known as Double Vacuum which can prolong the lifetime expediency of products up to 60 years with regular maintenance.

STAINED AND READY TO GO**

Before a window or door is assembled, every piece of wood is put through our proprietary multi-step, integrated conditioning and staining process. As part of this process, the wood is conditioned, sanded and baked to provide a more ideal, lasting and beautiful finish. Staining and painting can be a tedious, time-consuming hassle. Ordering finishes that meet WDMA TM 14-09 standards direct from the factory is a great way to achieve beautiful, ready-to-install windows and doors without the mess, fumes and time commitment.
